PROJECT STRUCTURE

Date	07 November 2022
Team ID	PNT2022TMID25719
Project Name	AI-Powered Nutrition Analyzer for Fitness Enthusiast

Project Structure

Create a Project folder that contains files as shown
- Dataset folder contains the training and images for training our model.
- We are building a Flask Application that needs HTML pages stored in the Templates folder python script app.py for serverside scripting

- we need the model which is saved and the saved model in this content is a nutrition .h5
- templates folder contains home.html, image.html, imageprediction.html pages.
- Statis folder had the css and js files which are necessary for styling the html Page and for executing the actions.
- Uploads folder will have the uploaded images(which are already tested).
- Sample_images will have the images which are used to test or upload.
- Training folder contains the trained model file.
